SUMMARY OF SKILLS AND QUALIFICATIONS

Operating Systems | Windows 10 • Linux • Mobile

Applications | Microsoft Office: Word • Excel • PowerPoint • Outlook • Eclipse • Visual Studio • GitHub

Programming | Python • Java • JavaScript • C# • HTML • CSS • PHP • Prolog • Lisp

Languages | French & English - Spoken & Written

EDUCATION

Bachelor of Engineering – Software Engineering Co-op **2018-2022 (Expected)**
Concordia University, Montreal, QC

- Member of the Institute for Co-operative Education
- GPA 4.14/4.30
- Relevant Courses:
  Data structures & Algorithms: Create algorithmic solutions to problems, solutions involving data structures & their manipulation. Time and space complexity of an algorithm
  Object-Oriented programming I &II: Basis of the Java language, and object-oriented applications
  Web Programming: Basis of HTML, CSS, JavaScript and PHP for website development

DEC in Pure and Applied Sciences **2016-2018**
Collège Jean-de-Brébeuf, Montréal, QC

- Winner of best project in Integration class: Creation of piezoelectric shoes that produce electricity

DES – High School Diploma **2011-2016**
Collège Notre-Dame, Montréal, QC

- Recognition award, Science +, enriched profile

PROJECTS

Vault - Hackathon, ConUHacks
Winner 2nd place, Sponsor challenge CGI **2020**

- In a team of 4, we developed an intuitive and interactive website allowing companies to manage and create volunteer events where volunteers can easily register for specific tasks inside an event.
- Implementation of an analytics page where volunteer and event manager can see statistics and performance of past events.
- Usage of **Node.js (backend), Vue.js (front end), MySQL (database), GitHub**

Core Competencies: Fast learning of new technologies, Teamwork

2048 – Game-clone with AI's **2019**

- Creation of a 2048 game clone using Pygame as graphic library
- Using *NEAT-Python*, implementation of a Genetic algorithm to train a neural network to obtain the biggest score possible
- Implementation of an AI using an *Alpha-beta pruning algorithm* to find the best possible move

- Usage of **Python, Pygame, NEAT-python**

Core Competencies: Knowledge of Python programming language, Learning concepts of neural networks

Nancy's Crazy Garden **2018**

- Creation of a multiplayer console game, where the goal is to be the first to fill up your garden (grid) before the other players
- Implementation of multiple classes (Player, Dice, Garden) that interact with each other
- Usage of **Java object-oriented programming**

Core Competencies: Problem assessment and analysis, knowledge of Java OOP

PROFESSIONAL EXPERIENCE

Accedian Network, Montreal, QC **2019 - 2020**
Software Quality Assurance Specialist (Part-time – 1 day/week) **January 2020 – May 2020**
Software Quality Assurance Intern (Internship – 4 months full-time) **September 2019 – December 2019**

- Develop and improve scripts for tests automation
- Work with remote teams from Vietnam to increase test coverage and save manual executions time
- Technologies: **Python**, **Robot Framework**, **Selenium**, **Git**, **Linux**, **Bash**

Core Competencies: Problem assessment and analysis, communication, fast learning of technologies

Cook, Customer Service (Part time) **2017–2018**
Yuzu Sushi, Montréal, QC

- Prepare the sushi's and tartars for different orders during the day, and operation of the cash register
- Organize the tasks of the day
- Produce a quality work in a precise time and under pressure

Core Competencies: Oral communication, decision-making, teamwork

Snow removal and Cleaning of garages (Contracts) **2013-2019**
Association Vivaldi, Montréal, QC

- Remove snow, clean garages.

AWARDS AND OTHER EXPERIENCES

Entrance Bursary awarded by Concordia University based on CEGEP'S R score (32.787) **Sept 2018**

Explore Scholarship, English immersion for 5 weeks **June 2018**
English Language Development at the University of Winnipeg

$1,500 Scholarship, Folie Entrepreneuriale Polytechnique Summer Camp **2015**
Summer camp to develop creativity, curiosity, communication and the domain of entrepreneurship

INTERESTS

New technologies, Artificial intelligence, Travel

Sports: Hockey (Member of a team since 2005), Basketball, Skiing
Volunteering: Teaching the basics of hockey to 6 to 9-year old
